PARENTAL CONSENT FOR ATHLETIC PARTICIPATION

WARNING: Although participation in supervised interscholastic athletics may be one of the least hazardous in which students will engage in or out of school, by its nature participation in interscholastic athletics includes a risk of injury which may range in severity from minor to long term catastrophic. Although serious injuries are not common in supervised school athletic programs, it is possible only to minimize, not eliminate, the risk.

Participants have the responsibility to help reduce the risk of injury. **Players must obey all safety rules, report all physical problems to their coaches, follow a proper conditioning program, and inspect their equipment daily.**

By signing this permission form, you acknowledge that you have read and understand this warning. **Parents or students who do not wish to accept the risks described in this warning should not sign this permission form.**

I (we) hereby give consent for _____ to:

- (1) Compete in interscholastic athletics at _____ School of the Hall County School District in Georgia High School Association (GHSA) sports, **except those CROSSED OUT** below:

| | | | |
|--------------|---------------|----------|---------------|
| Baseball | Cross Country | Soccer | Track & Field |
| Basketball | Football | Softball | Volleyball |
| Cheerleading | Golf | Tennis | Wrestling |

- (2) To accompany any school team of which the student is a member on any of its local or out-of-town trips;
(3) And, I hereby verify that the information on both sides of this form is correct and understand that any false information may result in my son/daughter being declared ineligible.

This acknowledgement of risk and consent to allow participation shall remain in effect until revoked in writing.

DRUG-TESTING ADMINISTRATION ACKNOWLEDGEMENT/CONSENT FORM

The Hall County Board of Education has authorized mandatory random drug tests for all student-athletes who participate in Georgia High School Association (GHSA) inter-scholastic athletics. Any sports activity that requires an annual physical as a condition of participation is subject to this procedure.

1. The student-athlete must present to the head coach this signed consent form, which authorizes the school to administer drug testing and that allows the results of the test to be released to parents or guardians, administrative officials, and the head coach. **(Note: A signed consent form is a requirement for participation in any GHSA governed inter-scholastic activity that requires an annual physical examination for participation. Parents and students do not have the option of not participating in the drug-screen program.)**
2. Random testing will take place at any time during the season with student-athletes chosen through lottery/random selection. Testing consists of providing a urine sample to those representatives of the firm administering the test. School personnel will supervise but will not administer the test. Privacy will be protected. Specimens will be processed for identity and secured to ensure against tampering. Test results will be reported to the school through the proper chain of command. In case of a positive result, the parent or guardian will be notified.

Testing will be done by the Northeast Georgia Forensic/Toxicology Lab under the supervision of the Toxicology Program Manager.

This acknowledgement of administration and consent to allow participation in the random drug-testing program shall remain in effect until revoked in writing.

GHSA BY-LAW 2.67 – “Practice Policy for Heat and Humidity

Schools must follow the statewide policy for conducting practices and voluntary conditioning workouts in all sports during times of extremely high heat and/or humidity that will be signed by each head coach at the beginning of each season and distributed to all players and their parents or guardians. The policy shall follow modified guidelines of the American College of Sports Medicine in regard to:

1. The scheduling of practices at various heat/humidity levels
2. The ratio of workout time to time allotted for rest and hydration at various heat/humidity levels
3. The heat/humidity level that will result in practice being terminated

A scientifically approved instrument that measures Wet Bulb Globe Temperature (WBGT) reading must be utilized at each practice to ensure that the written policy is being followed properly. **WBGT READING**

ACTIVITY GUIDELINES & REST BREAK GUIDELINES

UNDER 82.0

Normal activities --Provide at least three separate rest breaks each hour of minimum duration of 3 minutes each during workout

82.0 -86.9

Use discretion for intense or prolonged exercise; watch at-risk players carefully; Provide at least three separate rest breaks each hour of a minimum of four minutes duration each.

87.0 – 89.9

Maximum practice time is two hours. For Football: players restricted to helmet, shoulder pads, and shorts during practice. All protective equipment must be removed for conditioning activities. For all sports: Provide at least four separate rest breaks each hour of a minimum of four minutes each.

90.0--92.0

Maximum length of practice is one hour, no protective equipment may be worn during practice and there may be no conditioning activities. There must be 20 minutes of rest breaks provided during the hour of practice.

OVER 92

No outdoor workouts; Cancel exercise; delay practices until a cooler WBGT reading occurs

GUIDELINES FOR HYDRATION AND REST BREAKS

1. Rest time should involve both unlimited hydration intake (water or electrolyte drinks) and rest without any activity involved
2. For football, helmets should be removed during rest time
3. The site of the rest time should be a “cooling zone” and not in direct sunlight.
4. When the WBGT reading is over 86:
 - a. ice towels and spray bottles filled with ice water should be available at the “cooling zone” to aid the cooling process.
 - b. Cold immersion tubs must be available for practices for the benefit of any player showing early signs of heat illness.

DEFINITIONS

1. **PRACTICE:** the period of time that a participant engages in a coach-supervised, school-approved sport or conditioning-related activity. Practices are timed from the time the players report to the field until they leave.

2. **WALK THROUGH:** this period of time shall last no more than one hour, is not considered to be a part of the practice time regulation, and may not involve conditioning or weight-room activities. Players may not wear protective equipment.

PENALTIES: Schools violating the heat policy shall be fined a minimum of \$500.00 and a maximum of \$1,000.00.

**HALL COUNTY SCHOOL DISTRICT
STUDENT/PARENT CONCUSSION AWARENESS FORM**

SCHOOL: _____

DANGERS OF CONCUSSION

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor “ding” to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial—that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

COMMON SIGNS AND SYMPTOMS OF CONCUSSION

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confusion about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

2.68 GHSA Concussion Policy: In accordance with Georgia law and national playing rules published by the NFHS, any athlete who exhibits signs, symptoms or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional

has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include: licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician’s assistant, or certified athletic trainer who has received training in concussion evaluation and management).

- (a) No athlete is allowed to return to a game or practice on the same day that a concussion (1) has been diagnosed OR (2) cannot be ruled out.
- (b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.
- (c) It is mandatory that every coach in each GHSA sport (including Community Coaches, Student Teachers, and Interns) participate in a free, online course on concussion management prepared by the NFHS and available at www.nfhslearn.com at least every two years - beginning with the 2013-14 school year.
- (d) Each school will be responsible for monitoring the participation of its coaches in the concussion management course, and shall keep a record of those who participate.
